

## PLASTER WALL LIGHT FOR GU10

### Typology

Plaster wall light for GU10 max 35W lamp to be fixed to the ceiling with the springs provided.  
Lamp holder to be ordered with separate code.

### Features

Pure geometric shapes for these objects extruding from the ceiling: they can be painted in the same colour as the surface to blend seamlessly into the overall concept of the space.  
They are small parallelepipeds that protrude 12 cm from the ceiling and can be finished in the desired colour.

### Installation

Complete with springs for easy fastening into false ceilings.

### Material

Plaster with integrated aluminium flanges for quick and easy installation.

### Applications

These small light points extruding from the ceiling integrate perfectly into modern design environments, contributing to the effect of essentiality and linearity of the project.
