

ROUND PLASTER STEP LIGHT

Typology

The family of recessed Gessi in the step marker version: a round 68mm wall-flush opening, with a recessed light source parallel to the illuminated plane. It provides soft, glare-free light. Accommodates a GU10 lamp (lamp holder to be ordered separately). Complete with lamp-locking spring.

Features

These recessed plaster "frames" blend seamlessly into the wall, creating a pleasantly surprising effect.

Installation

Equipped with tabs for fixing to the plasterboard sheets in which they are inserted, they are grouted on the sides.

Material

Plaster with integrated aluminium flanges for quick and easy installation.

Applications

Step-light effect particularly suitable for installation on stairs or architectural break points.

BASIC

IP20
