

ARCHITECTURAL OPTICS

Typology

ARCHITECTURAL OPTIC transforms the way light interacts with space, offering precision and creativity like never before.

Whether you want to achieve narrow, well-defined beams or asymmetric distributions that wrap surfaces evenly, the OPTIC line guarantees a stunning visual impact.

Features

It is a silicone profile with a very small section, 30 x 23 mm, which allows flexibility impossible to achieve with rigid bar fixtures.

Available with emission angles of 10° and 30°, as well as asymmetric solutions.

This range of ultra-light and highly flexible profiles easily adapts to both vertical and horizontal curves.

RGBW versions are available with two beam angles.

Designing along the fluid lines of contemporary architecture has never been so simple and so inspiring!

Installation

Mounted with clips or with rigid and flexible profiles.

The cutting pitch is 250 mm.

Possibility to direct the beam with the adjustable bracket.

Material

Flexible silicone extrusion characterized by impact resistance, high tear resistance, and weather resistance.

Usage information

Dimmable 0-100%

DALI - DMX

Analogue and digital domotic control systems

Push Dali with ZKCOA controllers

CASAMBI compatible

Power supply

Max current for single power supply: 5A.

Connections

This item is supplied made to measure according to the specifications required by the project.

Please contact the sales team for further information.

LED pitch	41 mm

Lighting and photometric features

Beam opening	45°x30°
Nominal flux per mt	1800 lm/m
CCT nominal colour temperature	2700 K
Colour of the light	Warm light
Colour rendering index	90
Lifespan	50000 h
LED lifespan	L70B50
Trigger time	<0,2 s
Heating time up to 60% of full efficiency	Instant Full Light

Electrical characteristics

Rated power	120 W
Input voltage	24 Vdc
Dimmable	Yes
Energy efficiency class	This product contains a light source of energy efficiency class "F"
Operating temperature	-25°C / +35°C
